## **ISSUES RELATED TO PAYMENT FAILURE**

When a payment fails while paying the application fees, there could be two possibilities.

### **1. Your amount is NOT debited**

In this case, you might receive a message from your bank that the payment could not be processed. You will also see the payment failure screen.

### **2. Your amount is debited**

In this case, you will be left wondering why you did not see any kind of notification. You can send an email to the payments platform and check the status of that payment.

#### **Reason(s) for Payment Failure:**

1. Bad internet connection
2. Authorization failure
3. Authentication failure – Wrong details entered
4. Delayed notification
5. Payment gateway failure

Occasionally, a transaction fails on the receiver's side, but the payment gets debited from the user's account. In such cases, the amount gets automatically refunded by the bank within **30 working days**. Most banks don't notify users in case of refunds, so be sure to check your statement to ensure that the refund has come.

In the meantime, you can go ahead and make the payment again

In case it's been long, and the money still hasn't been refunded, do send us a message to the following email id and let us know. The status of the refund will be intimated.

Kindly mention the following details

- 1. Application sequence No/User ID**
- 2. Name of the Candidate**
- 3. Transaction ID No**
